

CAVALLINO

THE MAGAZINE FOR FERRARI ENTHUSIASTS

\$4 NUMBER 28

LETTERE...

Thanks—

Enjoy the publication very much!
Jack Kellam

Dear Sir:

Please find enclosed a check for \$24.00 for subscription renewal to *Cavallino*. I enjoy and await receiving each issue. It makes for interesting reading and enjoy the excerpts in Italian.

Would make one request for the non-Italian readers. It would be useful to publish a list of Italian words or phrases and publish the correct pronunciation in English. Some of the most common ones would be useful. It would help these individuals to use the words correctly. Keep up the good work.

Dr. Anthony Grasso
(We'll have something along those lines coming soon. Ed.)

Dear *Cavallino*,

In April I had been to Europe. In France, I got the big 1/8 scale Ferrari 250 GTO!! It was made by two Frenchmen, Mr. Marc Antonietti & Mr. Henri Bossac. Enclosed in this letter are photos of this superb GTO model.

Best Wishes,
Junichiro Hiramatsu

Additions and Corrections

Apropos our recent article by Alan Boe on the 250 GTE 2+2 (See *Cavallino* No. 27, pages 29 to 33) we want to make you aware of a 250 GTE Registry and Newsletter being published in California. Over 1000 examples of the type GTE were built and many have survived. This should provide a good base of owners worldwide to keep this effort going. In essence, it indicates how serious GTE owners are about their cars.

The newsletter is a small affair, but is full of information, with sections on latest news (Nuts and Bolts); Technical/Mechanical information; Articles, Books, and Publications to find; Recommended shops; Car of the Month profile; Letters; For Sale; and Registry update.

Started last year, the newsletter is published four times a year by Len and Dan Miller. If you are interested, please contact them at Box 955, San Carlos, California 94070.
